

Power BI Projects

Welcome to my Power BI Projects repository! Here, you'll find a collection of eight different Power BI dashboards that I've created, each focusing on a unique aspect of data visualization and analysis. These projects were developed using real-time data extracted from surveys and other datasets.

End Project

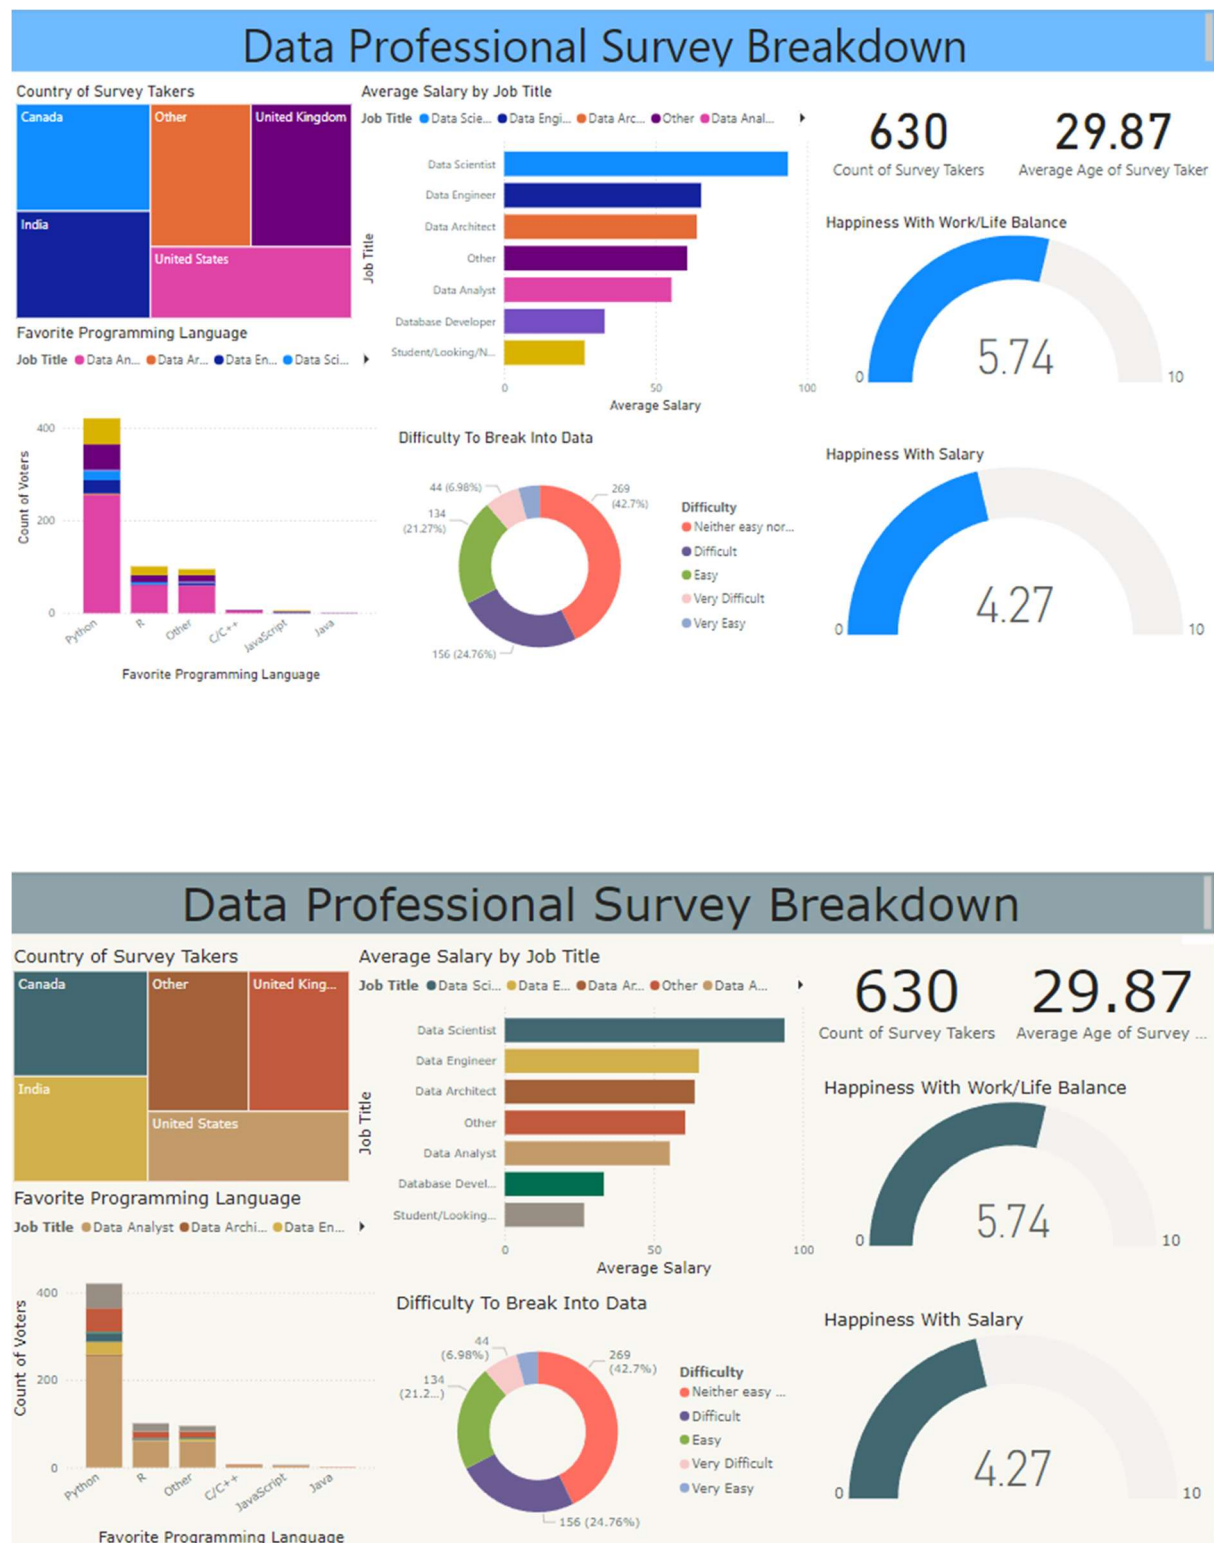

For the End Project, I utilized a unique dataset to showcase a comprehensive analysis and visualization, which includes a wide range of data from a survey. This project represents the culmination of my Power BI skills, bringing together various techniques and insights. Below, you'll find the dataset used and a sample screenshot of the dashboard.
